

Protection AGAINST MALWARE

Malware is a “digital germ” – just like seasonal flu, that can make you feel sick. Malware is a harmful computer program.

Do's

&

Don'ts

ALWAYS

Always consult grown-ups regarding suspicious situations.

NEVER

Never believe strangers who recommend interesting games to install.

AVOID

Be vigilant when online or on social media. Avoid “FREE” offers, rare items or prizes. These could be traps.

NEVER

Never attempt to solve tricky issues on the computer alone.

SKIP

Skip popups even claiming your computer is “sick” or “has a virus”. It is usually fake.

NEVER

Never download or open unknown programs, mobile apps even if they look legitimate.
